

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1. (original) Coated textile having printed patterns, characterized in that it comprises a textile underlayer forming a backing and combined with a coating layer formed from a film based on a polyolefin component and on an EPDM-type elastomer, the said coating layer having printed patterns on its surface which is not bonded to the textile underlayer.

2. (currently amended) Coated textile having printed patterns according to Claim 1, characterized in that the polyolefin component has a Shore A hardness of between 30 and 50, ~~preferably 40 Shore A~~.

3. (currently amended) Coated textile having printed patterns according to Claim 1, characterized in that the polyolefin component consists of ~~TPO-type~~ TPE-type polymers or copolymers chosen especially from polyethylene, polypropylene and blends or copolymers thereof.

4. (previously presented) Coated textile having printed patterns according to Claim 1, characterized in that the polyolefin component content is between 15 and 25 parts by weight with respect to the total weight of the composition.

5. (previously presented) Coated textile having printed patterns according to Claim 1, characterized in that the elastomer content is between 65 and 80 parts by weight.

6. (previously presented) Coated textile having printed patterns according to Claim 1, characterized in that the composition of the coating layer is as follows:

Polyolefin component	}	A	15 to 25 parts by weight
EPDM-type elastomer			65 to 80 parts by weight
Paraffin oil			0 to 15 parts by weight
Metallocene-very low density polyethylene			10 to 30 parts with respect to A
Polypropylene homopolymer			5 to 8 parts with respect to A
UV, heat stabilizer			0.4 to 0.6 parts with respect to A

7. (previously presented) Coated textile having printed patterns according to Claim 1, characterized in that the coated textile furthermore has a printing primer deposited on the coating layer.

8. (previously presented) Coated textile having printed patterns according to Claim 1, characterized in that it is provided with a protective varnish applied to the printed coating layer.

9. (previously presented) Coated textile having printed patterns according to Claim 1, characterized in that the

underlayer forming a textile backing comprises or consists of a woven, a nonwoven or a mesh, preferably a woven or a nonwoven.

10. (previously presented) Coated textile having printed patterns according to Claim 1, characterized in that it is provided with a foam-rubber underlayer combined with the backing textile on its face on the opposite side from that bearing the coating.

11-18. (cancelled)

19. (previously presented) Articles comprising a coated textile having printed patterns according to Claim 1.

20. (original) Articles according to Claim 19, consisting of printed tablecloths.

21. (original) Articles according to Claim 19, consisting of printed wall textiles.
